

Extreme Summer Series Lesson 2 Team Work

Team Work Activities

Egg Drop

Work together to build a device out of straws and paper clips that can protect an egg from breaking when dropped to the ground!

Flip It Over Challenge

Lay a bed sheet flat on the ground and everyone stand on top of it. Work together using only your feet to flip the sheet upside down - WITHOUT stepping off the sheet!- until the sheet is flat on the other side. A sheet with a pattern on one side would work best!

Human Alphabet

Work together using your bodies to make each letter of the alphabet!

Build a bridge

Work together using toothpicks and marshmallows to build a bridge and see how much weight it can hold!

HAVE FUN!
